

# SVITZER TO COMMENCE TOWAGE OPERATIONS IN PORT OF OSKARSHAMN 01/05/2022

Smålandshamn AB and Svitzer Sverige AB have entered into an agreement for Svitzer to provide towage services in the port of Oskarshamn starting from 1st May 2022. Oskarshamn will be added to the approximately 25 ports across Sweden and Denmark where Svitzer already provides harbour towage assistance with modern ASD or Voith tractor tugs between 50 and 90 tons bollard pull.

From 1st May all towage related matters will be handled and performed by Svitzer. This includes receiving towage orders from agents/operators, planning, and executing towage as well as invoicing. All tug orders to be communicated to Svitzer operations 24/7/365, contact details below.

Tugs will often be mobilised to Oskarshamn to perform the towage and as such good communication and information exchange with involved stakeholders will be an important factor in providing a timely service. Full terms and conditions can be found on attached tariff sheet but a minimum of 24 hours preliminary notice and minimum 12 hours for a firm order will be required. BAF (Bunker Adjustment Factor) is adjusted monthly and distributed by email on the 5<sup>th</sup> of every month.

Svitzer Sverige AB looks forward to providing a safe, reliable, and timely towage service in Oskarshamn with close cooperation with all involved parties. For any questions, please feel free to reach out;
